

HKE Society's,
M.S.IRANI DEGREE COLLEGE OF ARTS, SCIENCE & COMMERCE,
KALABURAGI-KARNATAKA
STUDENT SATISFACTION SURVEY REPORT 2021-22

Student Satisfaction Survey (SSS) is one of the mandatory criteria set by National Assessment and Accreditation Council (NAAC). It is also a pre qualifier for Assessment and Accreditation of the institution.

Utility of the Survey

The Student Satisfaction Survey by NAAC primarily focuses on Teaching Learning Evaluation. It collects in-depth data of a student's satisfaction with the teaching learning environment of the college. The students responses are collected and analyzed based on 21 questions designed by NAAC. After going through the question set one understands that the feedback collected from students are definitely useful for the streamlining the services offered to students. It seems that the survey was created by experts and leaders in the education to assist the educational institutions to define the success of the most important aspect of education- teaching and learning. The results of the survey summarize the expectations of the students and experts educationalists and the extent to which the College was able to meet these expectations. Research Methodology:

Research Methodology:

This year also, the Student Satisfaction Survey was conducted by a team of teachers and volunteer students in the month of March, 2022. The specific month was chosen so that teaching learning process in the second semester is at its fag end and it is possible for students to retrospect and provide correct responses. Each question in the NAAC SSS format is aimed at collecting factual opinion of students on curriculum, completion of syllabus, preparedness of the teachers, reaction of the students regarding pedagogy, attitude of teachers, transparency and fairness in internal evaluations, placement possibilities, curricular and extra-curricular activities, overall impression and suggestions about the college. Each question in the survey one or the other educational goal. This simple but important exercise definitely helps to improve the relevance of teaching and learning. This survey corresponds to an institute level feedback on infrastructure and learning experience.

The student responses were collected on telephone to simulate the exercise at the time of accreditation by a team of volunteer students. Selection of respondents was done using the random numbers from the students of each branch at UG level. Before proceeding for the survey, the Age,

College Name, Gender, academic programme being pursued by the student were confirmed. After making the students aware about the instructions, motive and her/his willingness to answer the complete set of questions, the responses were recorded on SSS form by student volunteers. In some cases students had to be called twice or thrice to suit their convenient time to answer the complete set of questions. This team of volunteer tele-callers was trained and supported by teachers. The respondents were assured that their identity would not be disclose.

HKE Society's, M.S. Irani Degree College of Arts, Science and Commerce, Kalaburagi. SSS - 2021-22
